

## BTP Italia

### Seventh Issuance – Term Sheet

<b>Issuer</b>	Republic of Italy
<b>Issuer ratings</b>	Baa2 / BBB / BBB+ / A- (Moody's / S&P's / Fitch / DBRS)
<b>Issuance announcement</b>	October 17 <sup>th</sup> 2014, with an Issuance Decree and a Press Release of the Ministero dell'Economia e delle Finanze (MEF) where the characteristics of the bond are described as well as the guaranteed minimum annual (real) coupon rate.
<b>Guaranteed minimum annual (real) coupon rate</b>	It is indicative and it released in the Issuance announcement to facilitate the investment choices of investors. The definitive annual (real) coupon rate is set at the end of the placement <sup>1</sup> period on the MOT and it cannot be below that level.
<b>Maturity</b>	6 years (October 27 <sup>th</sup> , 2020)
<b>Structure</b>	Bond indexed to Italian inflation (Indice dei prezzi al consumo per le famiglie di operai e impiegati - FOI, senza tabacchi, FOI ex-tobacco index)
- <i>Coupon: calculation methodology and payment</i>	<p>Semi-annual, indexed to the FOI ex-tobacco index of the semester, paid in arrears, and calculated by multiplying the real fixed semi-annual coupon rate (definitive annual real coupon rate/2) for the revalued principal.</p> <p>In case of deflation in a semester, the coupon for the same semester is calculated by multiplying the fixed semi-annual coupon rate for the nominal principal amount (<i>floor</i> on the coupon), thereby guaranteeing for the same semester a minimum return given by the semi-annual real coupon rate. In case of inflation during the following semesters, the revaluation of the principal will take place only if the index goes above the maximum level reached in the previous semesters.</p>
- <i>Principal revaluation: calculation methodology and payment</i>	<p>Paid semi-annually, on the basis of the FOI ex-tobacco index, applied to the nominal principal purchased; it is paid together with the semi-annual coupon.</p> <p>In case of deflation in a semester, there is no payment due on the part of the investor at the end of the same semester. In case of inflation during the following semesters, the revaluation of the principal will take place only if the index goes above the maximum level reached in the previous semesters.</p>
- <i>Nominal principal redemption</i>	The nominal principal is reimbursed in a bullet format at maturity, at the nominal (face) value (therefore non-revalued)
<b>Issue price</b>	100 (at par)
<b>MOT placement period</b>	4 business day of the Borsa Italiana calendar, from October 20 <sup>th</sup> to October 23 <sup>rd</sup> 2014
