PRESS RELEASE

Treasury Bills (BOTs) Offering Announcement

The Ministry of Treasury disposes the following BOT issues, that will be settled on 14th November 2008, carried out through the auction on 11th November 2008:

	amount (in millions of €uros)	Maturity	days
3month BOTs	4,500	February 16, 2009	94
12month BOTs	6,000	November 16, 2009	367

It is worth noting that € 9,500 million BOTs are maturing on 14th November 2008.

BOTs are offered through a competitive auction, without the indication of the minimum price, and can be subscribed for a minimum amount of 1,000 euros.

Any bids not containing price reference wont be allowed. Prices indicated by dealers, expressed in percentages, can vary of 0.001% or multiple thereof. The nominal amount of any bid cannot be less than 1.5 million euros.

The subjects allowed to participate in the auction are indicated in the issuance decrees.

In accordance with Section II – Title V of the legislative decree no. 213 of 24th June 1998 and the following related rules, that establishes all the details about dematerialization of Government Bonds, BOTs are represented by account registration in favour of the entitled.

Bank of Italy will comply with the "ad hoc" procedure, in order for the BOT amounts subscribed to be automatically settled through the so called facility of compensation and settlement service, which deals with financial instrument with the same settlement date. On the basis of the allocation, allottee intermediaries will credit the relative amounts to the subscribers' accounts.

Every dealer's bids, no more than three, are to be transmitted to the Bank of Italy - using exclusively the National Interbanking Network - strictly by 11.00 a.m. of the auction date, respecting the rules and the deadline indicated in the issuance decrees. In case of malfunctioning of the equipment, not allowing the admission of messages through the network, requests of participation in the auction must be sent via fax.

Bids received after the deadline set in the decrees are not taken into consideration. Possible requests that substitute previous ones, are taken into consideration only if they arrive before the deadline. Requests cannot be withdrawn after the above mentioned deadline.

If any dealer's bids exceed, also as a whole, the amount offered by the Treasury, they will be taken into consideration, starting from that at the highest price, to the extent of the amount offered, except what stated in the issuance decrees.

On the 31st October 2008 outstanding BOTs are 164,683.166 million euros, of which € 3,000 millions of 165 days, € 2,500 millions of 120 days, € 3,500 millions of 92 days, € 2,500 millions of 76 days, € 12,500 millions of 3 month BOTs, € 60,526.5 millions of 6 month BOTs and € 80,156.666 millions of 12 month BOTs.

Rome, 6th November 2008
