Current Position (From 2001 to date)

- Senior Statistician at the Sample Surveys Unit
- From 2001. Working in the area responsible for the <u>Survey on household income and wealth</u> (SHIW). The survey is conducted on a sample of about 8,000 households every two years (since 1962) to study the economic behaviours of Italian households. My team consists of five researchers.
- From 2012. Working in the area responsible for the Yearly Survey on household budgets (Y-SHIW). The survey is conducted every two years on a sub-sample of 2,000 households selected among SHIW respondents.
- From 2008. Member of the <u>Household Finance and Consumption Network</u> (HFCN). The HFCN conducts the Eurosystem's Household Finance and Consumption Survey (HFCS).
- Member of a team in charge of the microsimulation model for the economic behaviour of Italian households.

Selected publications and working papers

- 2013: Asking income and consumption questions in the same survey: what are the risks?, with G. Cifaldi, in "The use of registers in the context of EU–SILC: challenges and opportunities" Edited by M. Jantti, V.M. Tormalehto and E. Marlier, Eurostat.
- 2012: Balancing work and family in Italy: the new mothers' employment decisions around childbearing, with M. Lo Conte and P. Casadio, in Addabbo T. and Solinas G., (Eds) Non-standard Employment and Quality of Work. Physica-Verlag.
- 2011: To *misreport or not to report*?, with G. Ranalli, Statistics in transition new series, 12, 2, 281-300.
- 2010: *Income reporting behaviour in sample surveys*, with R. Zizza, Temi di discussione (economic working papers) n. 777, Banca d'Italia.
- 2009: *Measuring wealth mobility in Italy*, Temi di discussione (economic working papers) 703, Banca d'Italia.
- 2008: *Measurement error in the Bank of Italy's survey of household income and wealth*, with C. Biancotti and G. d'Alessio, Review of Income and Wealth, 54,3, 466-493.
- 2001: The planning of marketing strategies through graphical chain models: an application to consumer credit, Journal of Operational Research Society, 52, 1034-104.

Research interests

Non sampling errors, calibration, survey methods, wealth and income distribution, questionnaire design.
